CRM Sales Dashboard

About the Project:-

CRM Sales Opportunities

The data contains B2B sales opportunities from a CRM database for a fictitious company that sells computer hardware, including information on accounts, products, sales teams, and sales opportunities.

They've been using a new CRM system to track their sales opportunities but have no visibility of the data outside of the platform.

In an effort to become a data-driven organization, you've been asked to create an **interactive dashboard that enables sales managers to track their team's quarterly performance.**

Solution:-

Data Modeling:- We have developed star schema for our Data model, a new Date table is created for the purpose of Date wise insights.

Dashboard: - The Dashboard contains 4 report pages. Each Page has a report level filter for Manager, Quarter and Stage.

Executives/Team Leaders can explore the dashboard by manager, region to see how each manager is performing.

Key Findings: -

- Melvin, Summer Sewald, and Rocco Neubert are the top 3 Managers by Total Revenue.
- GTXPro, GTX Plus Pro and MG Advanced accounts for most sale.
- Kan-code, Konex, Condax are the top 3 Clients by reveue.
- Retails, followed by Technology and medical amount of max sales.
- Total Win% is around 48%.
